Ovarian Cancer and Talc: A Case-Control Study - PubMed Opportunities for genital exposure to talc were assessed in 215 white females with epithelial ovarian cancers and in 215 control women from the general population matched by age, race, and residence.

Ovarian Cancer and Talc: A Case-Control Study - PubMed

In the 1960s, a link between talc and ovarian cancer was suggested by observations that some talc powders contained asbestos 1 and that asbestos placed intraperitoneally in animals transformed the single layer of the ovarian surface to a multilayered one with abnormal cells. 2 A 1971 study found particles compatible with talc in human ovarian and uterine cancers. 3 A 1982 case-control study ...

The Association Between Talc Use and Ovarian Cancer

An initial analysis of an ongoing, multicenter case-control study indicates that women who have used oral contraceptives are approximately half as likely to develop ovarian and endome trial cancer as women who have never used them and that, despite previous concerns, contra ceptive use does not appear to increase a woman's risk of breast cancer.

Oral Contraceptives and Cancer Risk

Although ovarian cancer is the fifth-leading cause of death from cancer in women, scientists don't have a good handle on how it forms. Now a new study suggests that a microRNA—a molecule made by cells to turn genes on and off—may help kick-start a type of ovarian cancer called high-grade serous ovarian cancer.. Cells with high levels of the microRNA, called miR-181a, were pushed over the ...
